

Francophony-Workshop on funding professional and technical training

Works of a two-day workshop on “financing professional and technical training” (PTT) were opened, on Wednesday in Gammarth, by secretary of state in charge of vocational training Mongi Bedoui.

Organised by the Education and Training Ministry in collaboration with the Tunisian Technical Co-operation Agency (TTCA) and the International Francophony Organisation (IFO), the meeting was attended by experts from 21 French-speaking countries.

The workshop will focus on two main subjects: “entrepreneurial management of PTT centres” and “approach programme.”

It also aims to introduce the Tunisian experience in the training field and reinforce exchange of experiences and expertise among French-speaking countries.
