

## **The regional exhibition of digital production in primary schools**

The Regional Directorate of Education of Gafsa organized during the period from 23/02/2010 to 24/02/2010 the regional exhibition of digital production in primary schools, this event is realized in collaboration with the regional center of education and training of Gafsa and the regional committee for research and educational innovation.

The primary school teachers participate in this exhibition featuring 14 different products. Among the other participants, we find 50 teachers who teach students in the 5th and 6th grade primary and who underwent training in the field of computing.

The event attracted a large interest from inspectors, teachers and students.
