## English Language SPEECH CONTEST

An English language SPEECH CONTEST was held in Tataouine on May 16, 2010 by the Regional Directorate of Education on the initiative of the ELT Inspector in the area.

About 250 Basic school students impressed both jury members and a large audience of parents and education officials. Their excellent – and impressively creative - performances included acting, singing (individually and chorally) and reciting poems.

In compliance with both students' and parents' demand, it has been decided to make the contest an annual event that includes both French and Arabic speech contests
