Notification

Within the framework of implementing measures included in the Strategic Plan 2016-2020 and in accordance with the general orientations of the education reform committed to undertake good governance practices and enhance the right of access to information, the Ministry of Education publishes national education statistics with a set of relevant indicators for the school-year 2015-2016.

The ministry also disseminates, and for the first time, comprehensive statistical bulletins by region in order to support the choice for decentralization and to consolidate the role of the region as a key player in the education process.
